

Mica
is an extremely
versatile mineral,
widely used in
many industries
and applications, due to its
exceptional
characteristics. Our mica is
ethically
and
environmentally
responsible.

Dimensional stability

High reflectivity

Non toxic

Good UV barrier

Useful waterbarrier

Improves flexibility

Chemical resistance

High aspect ratio

Reasonable cost

Thermal stability

Electrical resistance

Heat resistant

MUSCOVITE MICA POWDERS

8

Oil well drilling
Pearlescent Pigments
Base materials

COARSE FLAKES 2 • 8 mesh

10

Cement products
Gypsum board systems
Jointings
Asphalt roofing felts
Automotive components
Acoustical products

FINE FLAKES 10 • 11 • 16 • 20 • 30 mesh

60

Adhesives
Welding electrodes
Cables and wires
Foundry works
Pipeline
Enamels
Mastic
Lubricants

COARSE POWDERS 40 • 48 • 60 • 100 mesh

200

Jointings
Paints
Fire retardants
Plaster products
Texture paints
Plastics
Polymers
Rubber products

FINE POWDERS 100 • 200 • 325 mesh

MICASILK

326

Cosmetics
Paints
Skin creams
Polymers

VERY FINE WET GROUND POWDERS
200 • 201 • 206 • 211 • 300 • 325 • 326
333 • 1000 mesh

MICASHINE

1500

Anti-static materials
Thermoset
Resins
Plastics
Decoratives

DECORATIVE RANGE
125 • 175 • 325 • 650 • 1500 mesh
